Happy International Women's Month

Greetings MiC Community,

International Women's Month is a time to reflect on the progress made throughout history displaying a woman's strength, determination, and resiliency.

Although great strides for women's advancement has improved throughout the years, there's still more work to be done.

Did you know?

- Women earn 23% less than men globally.
- The average annual income for women globally is \$11,500, compared to \$21,500 for men.
- Women occupy only 24% of parliamentary seats worldwide.

In honor of today we show women around the world whether it be a mother, grandmother, sister, friend, colleague, etc. our appreciation.

We have a few words of encouragement from our Chairman and CEO, Mary Chaney.

"As women, we need to stop discounting our contributions, doubt kills dreams! Instead know that your courageousness in the face of adversity is a testament to your strength and resolve to create the best life possible, not only for yourself, but every woman beside and behind you."
